

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas F. Presson on 10/26/2009.

The application has been amended as follows: The "computer readable medium" of claim34 is replaced with "non-transitory computer readable medium".

Claim34 (Amended) A non-transitory computer readable medium for storing a computer program to execute a content processing method comprising the steps of: reading a take-metadata file generated for each take and recorded on a recording medium together with content data; and generating electronic-mark-list data based on the take-metadata file, wherein the electronic mark indicating a special content data is generated when the mark generator detects a peak of total value of luminance levels of each frame in a predetermined length period, or when the mark generator detects that total value of audio output levels of each frame exceeds a predetermined level within a predetermined length period.
